## Case Management – treating the person as a whole

Case management in our sense of the word is the methodical management of cases with the aim of achieving the best possible rehabilitation healthwise so the person affected can return to an active life more quickly.

We take our clients and all their concerns and worries seriously. Illness, accidents and the resulting impact on what the person can manage can be a serious threat. Our case management takes these aspects into account as well.

Those affected by accident/illness avail themselves of our case management system on a voluntary basis.

All those who are in any way involved in the reintegration process benefit from efficient, comprehensive and targeted case management. Thus our services are of interest not just to businesses for whom it is not yet worth having their own case management system but also for insurers, social services, employers and not least those affected by the accident/illness themselves.

*'Once Activita took my case on there was finally some progress. Without that help the consequences of my burn-out would certainly have broken me.'*

E. W. from Frauenfeld

'On my way to the hospital after my accident I thought, "This is the end." But after the very first conversation with Activita, the outlook put me back on an even keel again.'

L. H. from Thun

## Activita Care Management AG: The pioneers in case management

We have been the leading provider of neutral and independent case management in Switzerland since 2001. This covers support and coaching in the medical/therapeutic, professional, personal/social and insurance-law/financial aspects.

### Reaching your target more quickly with Activita

Our goal is the best possible rehabilitation and professional integration of those affected by accident/illness.

68% integrated!

Our impressive record of success:  
Thanks to Activita seven out of ten clients manage  
to be reintegrated into work.

## Reintegration

Our employees know what they are talking about. The teams are recruited from the most varied of areas and therefore bring a corresponding wealth of know-how with them.

'Handing my case over to Activita was the best thing my employer could have done for me. And my boss was pleased not to have to deal with my complex invalid file.'

A. S. from Herzogenbuchsee

## Your personnel department has better things to do

Our experts ensure case management is methodical and targeted – in an ideal scenario up until full reintegration.

We provide interdisciplinary coaching and develop solutions tailored to the individual. So your employees never feel they are on their own.

## Centre of competence for all areas of care management.

### Take advantage of our in-depth know-how!

Our specialists possess comprehensive know-how and many years of experience. We welcome special challenges and enjoy developing tailor-made solutions in all areas of operational care management.
